CONDITIONS OF SALE

In this Schedule any reference to a "Horse" shall include a reference to any pony or foal

50 General

50.1. No Horse is allowed in the Sale Premises unless it has been pre-entered for the sale and all entry fees (if applicable) have been paid in full ("the Entry Fee") to the Auctioneer and any Vendor or other person attempting to enter the Sale Premises with a Horse that is not entered or in respect of which the Entry Fee has not been paid shall be refused access to the Sale Premises even if he has another Horse entered in the sale.

50.2 Every Horse must be accompanied to the sale with a DEFRA approved current passport which must be handed in to the Auctioneer immediately on arrival at the Sales Premises. No Horse regardless of its age will be allowed onto the Sales Premises without a current passport.

50.3 It is the responsibility of the Vendor prior to any sale and the Purchaser after a sale to provide water and forage to the Horse whilst it is on the Sales Premises.

50.4 In the event that a Horse is registered with a breed society its breed registration certificate must also be lodged with the Auctioneer on arrival at the Sale Premises together with the current passport and if any such certificate is not provided to the Auctioneer the Horse shall be sold without the benefit of registration.

50.5 It is the responsibility of the Purchaser to register a Horse he has purchased with the appropriate breed society. In a case where the registration of a Horse has been applied for by a Vendor he must lodge the acknowledgment card(s) with the Auctioneer and where a Horse is eligible for registration the Vendor must pass the appropriate application forms to the Auctioneer on arrival at the Sales Premises to be passed on to the Purchaser if the Horse is sold. If the Horse is not sold the paperwork will be returned to the Vendor.

50.6 A Vendor must supply a serviceable head collar with each Horse and this will remain with the Horse after it has been sold. It is the responsibility of the Purchaser to supply a lead rope.

50.7 It is the responsibility of the Vendor to lead his Horse into the sale ring and not that of the Auctioneer.

50.8 Every Horse must be fitted with a readable micro-chip which will be scanned on arrival at the Sales Premises and must match the details set out on the current passport for the Horse before it will be accepted for the sale notwithstanding that it has been advertised in any catalogue for the sale.

50.10 Unless a Horse is to be offered for sale without warranty it must be free from vice, quiet in the stable, to catch, load and shoe unless otherwise declared. Latent defects such as crib biting, wind sucking, head shaking, sarcoids and sarcoid like lesions, un-nerving must be declared and it must also be stated that if a Horse has been fired, tubed or hobbled unless it is to be sold without warranty.

Any complaints regarding Patent defects such as splints, curbs, sidebones and similar will not be entertained unless they cause the Horse to be lame. Sweet itch, being a condition, is not covered by the general warranty.

50.11 A Vendor must declare if a Horse is not eligible for the human food chain and that information must be clearly shown on its current passport.

50.12 For the avoidance of any doubt the provisions of Condition 6 relating to the Conduct of Sales applies to all sales of Horses as they do to all other livestock.

51 Warranties

51.1 Soundness

All Horses offered for sale by the Vendor must be sound in wind, eyes and action free from any medical conditions and healthy in every way. Any previous medical conditions must be stated even if resolved. In the event that any Horse is not so warranted it will be sold as seen. An unbroken Horse can be warranted sound.

51.2 Suitability

In the case of any Horse that has a reserve placed on it of £300 or more or which sells for

more than that sum the following suitability warranties must be given:

51.2.1 a Horse warranted as a Hunter must be quiet to ride in traffic, have been hunted and capable of being hunted;

51.2.2 a Horse warranted as a Hack must be quiet to ride and quiet in traffic and be capable of being ridden as a hack;

51.2.3 a Horse warranted as quiet to ride must be quiet to ride in traffic and be capable of being ridden;

51.2.4 a Horse warranted as quiet to drive must be quiet in traffic and be capable of being driven; and,

51.2.5 a Horse warranted as a Hunter, a Hack, quiet to ride or quiet to drive must be capable of being managed and ridden/driven by a reasonably experienced person of an age, size, weight and strength appropriate to the size of the Horse.

51.3 Warranty period

The Purchaser has until 12 noon on the Monday following the Contract for sale to contact the Auctioneer and notify him that any warranty placed on the Horse he has purchased has not been complied with. In the case of an alleged breach of the warranty of soundness the Purchaser must supply a Veterinary Surgeon's Certificate to verify the alleged breach. In the case of unsuitability such notification must be accompanied by a detailed report from a Veterinary Surgeon as to why the Purchaser believes the Horse to be unsuitable.

51.4 Additional issues relating to Warranties

51.4.1 A Horse that is a wind-sucker, weaver or rig and one that has been tubed, unnerved or operated on for Unsoundness of any kind must be so described.

51.4.2 A Horse that is a wind-sucker (i.e. habitually swallows air whether in association with grasping objects with incisor teeth or not) must be so described.

51.4.3 A crib-biter need only be described if the crib-biting is associated with wind-sucking.

51.4.4 Any thoroughbred Horse that is on the forfeit list with Weatherby's/The Jockey Club or that has run at an unrecognized race meeting must be so described.

51.4.5 Any Horse that is in foal or believed to be in foal at the time of sale must be so described and if not so described and is subsequently found to be in foal within 56 days of the date of the sale then it is returnable to the Vendor at the Purchaser's discretion.

For the avoidance of doubt the general description of each Horse and details of age, height and colour do not constitute a warranty but the details of the age of the Horse must correspond with the details given on the current passport or breed society registration certificate applicable to the Horse.

52 Horses sold without warranty – 'Sold as Seen'

If a Horse is to be sold without any of the warranties set out above it must be stated on the Entry Form for the sale that this Horse is sold as seen. In this case the Purchaser has no recourse against the Vendor under any of the above warranties.

53 Disputes

53.1 Only a warranty of soundness or suitability can be disputed.

53.2 No dispute will be entertained by the Auctioneer until the Purchaser has paid for the Horse that is the subject of the dispute.

53.3 Any such dispute must be notified to the Auctioneer within the time scale set out in Condition 51.3.

53.4 If the complaint is upheld by the Auctioneer the Horse shall be returned to the Vendor at the Purchaser's expense within 48 hours of the Auctioneer's decision.

53.5 If a Vendor and Purchaser do not agree with the Auctioneer's decision the dispute shall be submitted to the arbitration of either a suitably qualified Veterinary Surgeon (in the case of a complaint of Unsoundness) or a suitably qualified person (in the case of a complaint of unsuitability). At the Auctioneer's sole discretion the person appointed will be an arbitrator.

53.6 Unless the procedure set out in Condition 53.5 is followed the Purchaser will be required to keep the Horse with all the alleged faults and will have no claim for damages or otherwise against the Vendor or the Auctioneer in respect of the Horse.

In the event of the appointment of an arbitrator his decision shall be final and binding on both parties and the costs of the arbitration and any other associated costs shall be determined by the arbitrator and set out in his award.

53.7 If the decision of the Auctioneer or the arbitrator (as the case may be) is in favour of the Purchaser the sale of the Horse shall be annulled and the Purchaser shall be able to return the Horse to the Vendor and receive back the purchase price (without interest) but will not be entitled to the payment of any expenses incurred in the return of the Horse or in connection with the sale to him. The party against whom any decision/award is made shall be responsible for paying all the expenses reasonably incurred by the Auctioneer or the arbitrator (as the case may be) in connection with the dispute including (but without prejudice to the generality of this sub clause) the costs associated with any examination or inquiry and the fees of any person or persons appointed by the Auctioneer to decide on the dispute or to make any enquiry or examination (as the case may be)
